KONTROL STICK KE1 SERIES

Touch Sensitive Intelligent Control Keypad
LED DMX Architectural Software Control

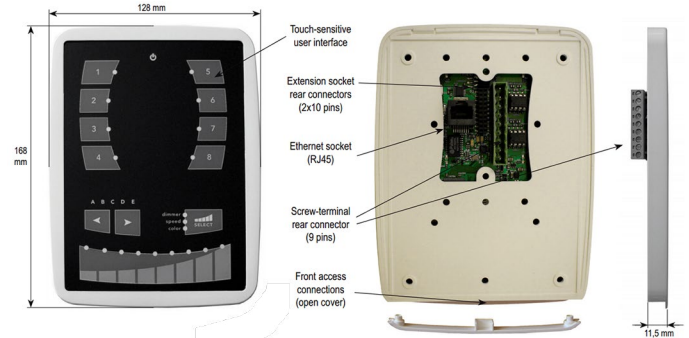

Models:

- WVDSTICK1: 2x512 DMX Channels, 218 Steps, 64K Memory

The "Sunlite Touch-sensitive Intelligent Control Keypad" which is commonly called S.T.I.C.K. has the best assets to "Stick to forthcoming needs" and to become a new worldwide standard. This complete stand alone wall-mounted DMX controller is the perfect answer to interior lighting control expectations. Along with a state of the art design, the product comes with amazing features such as 1024 DMX channels, touch sensitive panel, clock/calendar, remote control, Ethernet facilities, and much more.

Simply screw the STICK's back plate onto a single or double gang wall socket, connect the power and DMX cables to the STICK's block connector, then clip the STICK onto the wall.

The STICK-KE1 includes an Ethernet network connector allowing you to connect your STICK to a Local Area Network (LAN). Once connected, the unit can be controlled from the STICK remote app or programmed using the Arcolis app for Apple iOS and Google Android devices.
