## **Product Description**

Uniform light distribution, excellent LED lumen maintenance, high efficiency, low cost, and stylish design ensures the Array Slim is a popular choice. The fixture also on-site dimmable output and CCT settings, allowing the contractor to set the lumen value and CCT of the fixture at the installation site to a level that is perfectly suitable for their needs. Emergency egress battery and light control are optional, which is an ideal choice to meet any daily wall-mounted lighting applications.

### **Performance Summary**

- Philips Lumileds 2835 LEDS with high efficacy >140 Lm/W
- USA assembled product with quick warranty support
- In stock and ships from several U.S. locations for quick delivery
- Designed with precise tolerances for manufacturing considerations
- Modern design with modern components, excellent choice for retrofitting
- Low profile, 3G vibration rated compact design prescribed by ANSI C136.31
- National listing lab tested to IES standards with Type IV distribution
- High lumen maintenance exceeds DOE requirements
- Solid State with high-shock and vibration resistance
- Rugged two-piece A360 die-cast housing with integral heat sink
- Housing is completely sealed against moisture and environmental contaminants
- 4" and 5" Junction box or 1/2" conduit mounting methods can be used
- Architectural polyester bronze powdercoat finish
- Chromate conversion coating for long lasting appearance
- Rust resistant stainless steel hardware with durable nickel-plating
- Emergency backup driver optional with 90 minutes of power
- Optional Integrated photocell can be switched on/off on the fixture
- Aluminum LED boards with copper tracings for best thermal management
- LED array manufactured using a state-of-the-art SMT machine
- 1/9th micro color binning enables tight color control
- Hot color targeting ensures color is within ANSI bin compliance
- Light engine is color selectable from 3000K, 4000K, and 5000K configurations
- Scalable lumen package adjustments from 100%, 80%, 60%, and 40%
- Photometric optic built over each LED for enhanced light distribution
- Optics are precisely designed to shape the distribution, maximizing efficiency
- Anti-UV prismatic translucent lens is designed to shape the light distribution
- High CRI RA>80 enhances original colors
- Contains no mercury, lead, infrared or UV radiation and cool to the touch
- Operating temperature: -50 to 104 degrees F (-10 to 40 degrees C)
- 100,000 hour LED life based on LM-80 results and TM-21 calculation
- Certifications: CE, RoHS, UL, cUL, DLC IP65 outdoor rated
- 10 year limited warranty

#### Models:

- VVDWP1538: 17W/23W/31W/38W 5,690 Lm 6.1" (H) x 13.1" (W) x 3.8" (D)
- VVDWP1565: 23W/35W/50W/65W 9,816 Lm 6.1" (H) x 13.1" (W) x 3.8" (D)
- VVDWP1510: 43W/62W/84W/100W 14,950 Lm 6.1" (H) x 13.2" (W) x 5" (D)
