NICOLAUDIE ●●●

Models:

- WDSLESAU9: 256 DMX Channels, 20 scenes
- WDSLESAU10: 512 DMX Channels, 99 scenes

The most cost-effective version of our standalone DMX interfaces for applications where simplicity and reliability are very important. Able to control DMX channels in a single zone, allowing for the playback of dynamic and highly detailed scenes. DMX output via a 3 pin XLR socket. Scenes are triggered via push buttons or dry contacts. Perfect for integrators or manufacturers as it can be supplied with or without an XLR socket.
